Process Before the Unassembled Convention (UC)

- We advertised the date of 27 May by which to receive appeals or challenges to my e-mail address.
- As of the deadline, I received 23 appeals or inquiries from 5 of our units – 4 from Albemarle; 16 from Campbell; 2 from Charlottesville; 1 from Fluvanna; and 1 from Halifax.
- In addition to those who submitted appeals to me by the deadline, we have to date been invited to consider the following:
 - deleting 25 delegates from the Bedford certified roster as it was discovered that they reside in the 6th District, and were erroneously added to the certified list by simple human error.
 - I accepted another appeal on 6/9 from Franklin County over a delegate's form that was received on time, but was misplaced. Simple human error. The CC is reviewing the situation and will vote on it.
- As we will consider appeals even on Saturday at the UC, it is to our advantage to deal with as many as come up prior to Saturday, like the one in Franklin County that came up yesterday.
- I do not plan for the CC to consider any more challenges, other than those of a purely administrative nature such as the discovery that a delegate may reside outside the 5th District.
